**Part III DETAILED ACTION**

***Double Patenting***

Claims 37-47 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-11 of U.S. Patent No. 6,342,624<sup>1</sup> for reasons of record. The terminal disclaimer filed March 21, 2003 is improper. The instant application has been improperly identified since the number used to identify the application is incorrect, note the Serial No. recited in about line 5 of the first paragraph.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

<sup>1</sup> It is noted that the Patent Number of USP 6,342,624 had the last two numbers transposed in the rejection of record. However, the correct patent number was used by applicants in the terminal disclaimer and the number has been corrected here.
